

Mobile assets, as well as onboard cargo, all have operational issues that affect your 'bottom line'. Fleet Analytics offers affordable end-to-end M2M solutions that utilize the most advanced telemetry devices and lowest cost GPS tracking services for your stationary and mobile assets. WideAwake ^{AM PM} Technology Solutions give you more than just products for your GPS asset tracking and security needs. Add in the most affordable web-based asset monitoring and reporting services on the market today, and **your assets are 'WideAwake' when you need them to be.**

Fleet Analytics offers low-cost web-based location reporting service plans that include email, text, and cellular alerts, fixed interval report in options, and bulk plans with estimated monthly messages. Alternative access through your own website with customized branding is also available.

Ask us about our low-cost web-based asset location, alerting, and reporting service. No special hardware, software, or training required.

WideAwake ^{AM PM} Service Plans start as low as \$5 a month! Call us at 631.337.1748.
